SWEEP OVER NORTHERN EUROPE.

Severe Gales. Accompanied by Snow, Hail and Thunder.

London, Feb. 21.—Tremendous gales, accompanied by snow, hail and thunder, swept over Northern Europe during the day, and were especially severe in the British Isles. There has been widespread damage to property, numerous fatalities and many shipwreck casualties.

Berlin, Feb. 21.—Violent storms, accompanied by hail and snow, are reported from Western and Southern Germany. At many places the wind rose to a hurricane. A number of factories were unroofed at Essen, and in one instance several workmen were seriously injured. A railroad workshop in course of construction at Jena was blown down and fifty men were caught, five of whom sustained dangerous injuries. A heavy rainfall is reported from Western Germany and the Rhine and its tributaries are rising rapidly.

The storm is raging also over the North sea and a number of vessels are reported in distress off the mouth of the Elbe.

Gunboat Gloucester Floated.

Pensacola, Fla., Feb. 21.—The United States gunboat Gloucester, which was blown ashore here during the hurricane last September, has been floated. The vessel will go into dry dock.

MONEY FROM WHITE

EVELYN NESBIT WAS PAID SUM
OF MONEY WEEKLY BY THE
ARCHITECT.

MEMORY OF WITNESS POOR

DEFENDANT'S WIFE UNABLE TO
RECALL INCIDENTS OF HER
PAST LIFE.

New York, Feb. 21.—In continuing his cross-examination of Mrs. Evelyn Nesbit Thaw at the trial of her husband, District Attorney Jerome brought out the fact that in 1902 Stanford White deposited \$1,350 with a New York trust company with instructions that it should be paid to the Nesbit girl at the rate of \$25 a week. Mrs. Thaw frankly admitted receiving checks from the trust company, but she would not admit that there was a provision that she should receive the money only when out of employment. The prosecutor spent nearly the entire afternoon in trying to make Mrs. Thaw admit that this was true, but as often and in as many ways as he put the question to her, she gave the one answer: "I don't remember."

Mrs. Thaw's inability to remember a number of other things about which Mr. Jerome questioned her was by far the most material element in the cross-examination. The district attorney delved into the witness' past life with a familiarity as to details and a store of general knowledge which seemed to amaze all who heard, not excepting the defendant's counsel.

Mr. Jerome indicated early that he had no disposition to spare Mrs. Thaw's feelings. He interrogated her pointedly as to her men acquaintances of the past. He laid especial stress upon her acquaintanceship with James A. Garland, who figured for the first time in the case. Mrs. Thaw said she knew Garland before she met White.

" weren't you named as correspondent in the Garland divorce case?" asked Mr. Jerome.

Mrs. Thaw was shaking her head when Mr. Delmas sprang to his feet with an objection. Justice Fitzgerald overruled the objection, but Mr. Jerome withdrew the question.

Never Posed in the Nude.

Mr. Jerome questioned the witness about her manner of posing for artists and brought from her a denial that she ever posed in the nude. Mr. Jerome was insistent for details and did not mince words.

Many photographs of Mrs. Thaw were introduced in evidence. Mr. Jerome during the morning session pled the young woman with questions as to what disposition she had made of the letters written to her by Stanford White. Some, she said, had been destroyed, and some she had given to her husband. In the midst of the district attorney's examination with regard to the letters and when he was pressing for an answer as to what had become of some of them, Thaw learned far over and whispered to his counsel in a voice audible to those nearest him:

"Stanford White stole them."

Attorney O'Reilly thereupon said aloud:

"Stanford White got them."

"If counsel desires to testify we will be very glad to have him do so," Mr. Jerome remarked sarcastically.

Later Mr. Jerome indicated that he had in his possession several letters written by Stanford White to Evelyn Nesbit saying he would show her the letters to see if they would not brighten her memory. He changed his mind, however, and the letters were not produced. Mr. Jerome demanded that Thaw's counsel deliver to the court the Stanford White letters they have in custody, but they made no response.

Statements by Mrs. Thaw's Mother.

Mr. Jerome was assisted materially

in his cross-examination by typewritten statements made by Mrs. Thaw's mother and by Howard Nesbit, her brother. He consulted the statements from time to time and Mr. Delmas let this fact become known to the jury by remarking upon it.

Mr. Jerome's cross-examination may require several days yet. He jumped about from one part of Mrs. Thaw's story and one period of her life to another in a way that baffled any attempt to tell how far he had progressed with his attack. He apparently intends to take every advantage of the ruling of Tuesday which allows him wide latitude in testing the credibility of the witness.

Mr. Delmas, contrary to expectations, interposed few objections. He is evidently preparing, however, for an extended re-direct examination, and this, together with Mr. Jerome's cross-examination on the re-direct, promises to keep the prisoner's wife on the witness stand indefinitely.

Mrs. Thaw seemed perfectly self-possessed at every stage of the cross-examination. At times her voice trembled perceptibly, but almost always it was clear and emphatic. She fenced with the prosecutor continuously, corrected him at times as to assumptions drawn from previous answers, and occasionally told him his questions were entirely too long to permit of a proper answer. The young woman seemed swayed by the district attorney's mood. When his voice was

soft and purring, and perhaps insinuating, she answered in the same low tone. When Mr. Jerome would become aroused and snap questions at her in a loud voice, she replied in kind. When the prosecutor would persist with a question she had answered two or three times, Mrs. Thaw would finally reply with an emphasis on each word, speaking slowly, distinctly and definitely.

The defendant was always alert to catch every word. He seemed impatient at times at some of the questions put by the prosecutor and kept a whispered comment with his attorneys.

WANTS KELSEY REMOVED.

Governor Hughes Makes Recommendation to State Senate.

Albany, N. Y., Feb. 21.—Governor Hughes has recommended to the New York senate the removal from office of Otto Kelsey, state superintendent of insurance, on the ground of unfitness for the position. This is demonstrated by what the governor regards as a lack of appreciation and grasp of the needs of the department, especially as disclosed by the investigation of the Armstrong commission.

In a special message the governor characterized as a "barren excuse" the contention of Superintendent Kelsey that the great mass of detail work in the department justified him in his failure to remove from office First Deputy Superintendent Robert Hunter, head of the New York office, and Chief Examiner Vanderpool. He disclaims any desire "to impugn Mr. Kelsey's integrity," attributing to him only "lack of force and initiative," and declaring that "the excuses he now makes serve only to place in a more prominent light his misconception of his obligations."

The message was read, and on motion of Senator Raines, the Republican leader, was ordered printed and referred to the committee on judiciary.

The committee met, but beyond informal conversation did not take up the matter and probably will not do so until next week.

HONDURANS DEFEATED.

Nicaraguan Troops Capture Important Positions.

Managua, Nicaragua, Feb. 21.—The Nicaraguan army, under Generals Vasquez and Fornos, has defeated the forces of Honduras at several points, capturing important positions.

President Bonilla of Honduras has issued a proclamation in which recent events are distorted and appealing for recognition of the boundary question which Nicaragua has not taken into consideration since the king of Spain rendered his award in the matter. Nicaragua has only demanded satisfaction for the violation of her territory, for the attack on property and the burning of buildings in Nicaraguan territory by regular troops of Honduras, and for the killing of the Nicaraguan soldiers who composed the small frontier guard which was attacked by Honduran troops.

PAY OF POSTAL EMPLOYEES.

House Passes Measure Increasing Their Salaries.

Washington, Feb. 21.—The post-office appropriation bill, the largest ever reported from the committee on postoffices and post roads, passed the house. All the provisions relating to increased pay affecting 90 per cent of the postal employees and which Tuesday were stricken out on points of order, were restored to the bill. The action was accomplished by a rule presented by the committee on rules after the bill had been reported to the house by the committee of the whole. Points of order were the feature of the day, the battle over the provisions in the bill continuing throughout the session.

CARSON PIRIE SCOTT & CO.

WHOLESALE DRY GOODS.

"Michael's" patrons,
Brainerd, Minn.

Friends:

The study of dress fabrics has been an extremely interesting one; for one who gives attention to this line is meeting something new constantly. The continued use of plain materials for so many seasons has grown somewhat monotonous and this change is much welcomed. As one views the displays of the materials or of the suits now on exhibition he is wont to say "too many light materials," but they soon grow in favor; surely the plaids, checks and styles are very pretty and the garments made from them have such a decided air of dressiness that they cannot but be popular.

Most of the fabrics are of the lighter weight materials. Wool taffetas, light weight panamas, tanise cloths and the like are most prominent in the displays. As we mentioned yesterday, silk suits are receiving very much attention and silks of very neat designs are very much in evidence.

Everything indicates a big colored waist goods season. Even at this early date many of the wholesale stocks are out of the more desirable numbers.

It has been years since the price of dry goods have advanced as they have during the last six months and still greater advances are sure to come. Raw silks have advanced 25 per cent., and cottons are still going up, while skilled artisans are securing almost any price they demand, and they are demanding too. We have protected ourselves by early purchases and by timely purchases now, but the immediate future must witness a raise in price that will be without a precedent in recent years. This is a year where early purchases will save money.

Very truly yours,

H. Michael

LONG CONTEST ENDED

EFFORT TO EXPEL REED SMOOT
FROM THE SENATE TERMIN-
ATES IN FAILURE.

FORTY-TWO VOTED FOR HIM

WHILE ONLY TWENTY- EIGHT SEN-
ATORS VOTED TO UNSEAT
THE UTAH MAN.

Washington, Feb. 21.—The four years' contest against Reed Smoot as a senator of the United States from Utah was ended when forty-two of his colleagues voted to sustain him as against twenty-eight for the resolution to unseat him. Added to this there were nine pairs, making the actual standing on the resolution 37 to 51. Senator Smoot did not vote and Senator Wetmore was absent and not paired.

The Smoot resolution was called up soon after the senate convened. Every seat in the galleries was filled and during the voting the standing room on the floor was crowded by members of the house and employees of the senate. Seldom has there been a proceeding affecting the standing of a senator that has attracted such marked attention. In the audience were representatives of a number of prominent women's organizations which have been active in circulating petitions against Mr. Smoot. These women secured many thousands of signatures to their petitions, which were sent to the senate in elaborately bound volumes.

There have been numerous speeches for and against Senator Smoot since the resolution to unseat him was reported from the committee on privileges and elections last year. During the day Senators Dubois, Hansbrough, Newlands, Bacon and Burrows, the latter chairman of the committee, spoke against Smoot, while Senators Beveridge, Dooliver and Foraker spoke in his support.

At 4 o'clock, when by agreement the voting was to begin, Senator Hopkins offered his amendment to the committee resolution and it was adopted. Under the amendment a two-thirds vote would have been necessary to carry the resolution which declared that Senator Smoot is not entitled to his seat. Senator Carmack then offered as a substitute a resolution declaring that Senator Smoot should be "expelled." The effect of this would be to displace the committee resolution if adopted, and it was defeated.

Vote on the Resolution.

Then came the vote on the committee resolution as amended, which was as follows:

"Resolved, Two-thirds of the senators present concurring therein, that Reed Smoot is not entitled to a seat

as a senator of the United States from the state of Utah."

Although it was a foregone conclusion that the resolution would fail and thus end the long fight against the Utah senator, the roll call contained some surprises. Of the forty-two votes in favor of Mr. Smoot three were cast by Democrats, Blackburn, Clark of Montana and Daniels. Senator Teller was paired in favor of Mr. Smoot. Of the twenty-eight votes against Mr. Smoot nine were by Republicans, Burrows, Clapp, Dupont, Hale, Hansbrough, Hemenway, Kittredge, La Follette and Smith.

At the conclusion of the voting there was a rush of Republican senators to the cloakroom to congratulate Mr. Smoot. Members of the house followed and the Utah senator was patted on the back and his hands were shaken in hearty fashion by the men who expressed their admiration of his bearing in the long and trying ordeal through which he has passed. On the floor of the senate and in the galleries it was many minutes before order could be restored.

ALDRICH FINANCIAL BILL.

Occupies Attention of Senate After Smoot Case Is Disposed Of.

Washington, Feb. 21.—The senate refused to declare vacant the seat of Reed Smoot, senator from Utah. This action occupied the body until 4:30 o'clock.

The Aldrich financial bill, providing small bills and authorizing the deposit of customs receipts in national banks, was then considered until o'clock without final action.

A night session was held at which the naval appropriation bill and the river and harbor appropriation bill were passed.

The senate adjourned at 10:40 o'clock.

Favor Municipal Playgrounds.

Washington, Feb. 21.—Municipal playgrounds within easy walking distance of every boy and girl in the large cities were advocated by President Roosevelt and by Representative Boutwell of Chicago, E. E. Brown, United States commissioner of education, and other speakers at a "playground banquet" under the auspices of the Washington Playground association.

Ohio Village Swept by Fire.

Chillicothe, O., Feb. 21.—Bainbridge, a village of 3,000, twenty miles southwest of here, was swept by fire at night. The loss is estimated at \$100,000.

ESTHER MITCHELL INSANE.

Woman Who Killed Her Brother Sent to an Asylum.

Seattle, Wash., Feb. 21.—Esther Mitchell, who since July has been in the county jail here charged with the murder of her brother, George Mitchell, has been sent to the state asylum for the insane.

The killing of George Mitchell by his sister was the result of a reign of Holy Rollerism in Oregon. George Mitchell killed Franz Edmund Crefield, the Holy Roller leader, in this city last May.

FRUIT VESSEL SUNK

STRUCK BY FRENCH CRUISER
AND SEVEN OF THOSE ON
BOARD PERISH.

New Orleans, La., Feb. 21.—In hazy weather the French cruiser Kleber rammed and sank the American fruit steamer Hugoma in the Mississippi river just off the city. Captain Lewis of the Hugoma said that seven coal passers and firemen had been drowned on his vessel. Most of them were Japanese. James O'Neal of New York suffered a broken leg. The cruiser was but slightly damaged. The Kleber, just arriving from Havana, was rounding a sharp turn and the Hugoma, drifting with the six-mile eddy current, turned directly into the man-of-war's path. Captain Lewis of the Hugoma says that his signal was mistaken by the warship.

The latter struck the fruit ship amidship on the port side, nearly cutting the vessel in twain and within five minutes the Hugoma plunged to the bottom in more than 100 feet of water. Several of her crew scrambled upon the bows of the cruiser before the latter backed free, while others lowered boats and one or two jumped into the river. The launching of boats was extremely difficult, for when they struck, the Hugoma rolled far starboard, remaining there until the cruiser backed, when the fruit ship immediately listed far to port and began to go down.

The Hugoma was of small tonnage and was built in 1901 at Wyandotte, Mich. It was owned by the New York and Porto Rico Steamship company.

DEBUNCES HIS ENEMIES.

Senator Bailey Declares Their Statements Are Untrue.

Austin, Tex., Feb. 21.—Repeatedly denouncing his enemies as "liars" and their statements against him as lies, Senator Joseph W. Bailey continued his statements before the senate investigating committee. His testimony was all about his financial deals with John H. Kirby, the Texas millionaire lumberman; S. G. Bane, president of the Seaboard National bank of New York; Henry Clay Pierce, president of the board of directors of the Waters-Pierce Oil company; B. F. Yaokum, who is at the head of two systems, and with various other financiers.

One of the most important statements was that he had been asked by the Standard Oil officials in New York, immediately after the Beaumont oil field boom, to give them an opinion as to what the opportunities for them to re-enter the state again and do business might be.

"I gave them a written opinion in which I stated that if they attempted to do business in the state they would be put in the penitentiary and their property absorbed in fines and penalties," said Senator Bailey.

Administration Ticket Elected.

New York, Feb. 21.—The administration ticket of the Mutual Life Insurance company was elected by a majority of approximately 120,000 in the recent policyholders' election, according to a statement by the election inspectors to the proxy committee. The vote as given by the inspectors was administration ticket, 199,182; united committee ticket, 69,161; fusion ticket, 3,447.

Keep your Women Folks Good Natured.

What I do when a woman kicks? I don't feel like kicking her out—for a fact, I am pleased when a woman kicks—more so if she happens not to be one of my household—for through this dissatisfied one is my chance to engage an advertising agent as long as she lives at a very small expense. When things go wrong, I make good, I do so with a smile, I tell her that she is in the right always. I am glad to meet her and she is glad to meet me. She is a "Forget me not." I don't get a chance at many such ones—but if you want to meet many such ones—accept our invitation to-night and meet them at Cale's Great opening display of spring fabrics for 1907. You will be glad when you see the pleasure with which she gazes upon these things of beauty.

You are all invited from 6 to 10 o'clock to-night.

SWIFT'S OFFICE BROKEN INTO

Some One Broke the Glass Out
of the Door of the Office of
Swift & Company

NOTHING WAS TAKEN AWAY

Thought Burglars were Novices
or were Scared Away Before
Getting Into Safe

Brainerd had another burglary last night. The office of Swift & Company on North Broadway was entered by burglars, but so far as can be learned there was nothing within disturbed. The burglar was very methodical and piled the broken glass up in a neat pile, then reached in and unfasted the door and entered. So far as could be learned there was nothing taken and it is supposed that the party or parties were either novices who could not cope with the safe or if they were professionals were frightened away before they had time to make an attack on it. There was nothing of value in the office except what was locked in the safe and the only loss is the pane of glass.

Caution.

Imitations have been placed upon the market so closely resembling Alcock's Plasters in general appearance as to be well calculated to deceive. It is, however, in general appearance only that they compare with Alcock's, for they are not only lacking in the best elements which have made Alcock's so efficient, but are often harmful in their effects. Remember that Alcock's are the original and only genuine porous plasters—the best external remedy known—and when purchasing plasters the only safe way is to always insist upon having Alcock's.

TOWERS WANTS

A NEW TRIAL

Attorneys for Henry Towers are
Having Short Hand Notes of
Trial Transcribed

WILL ASK FOR A NEW TRIAL

If Refused the Case will be Carried to the Supreme Court
With Same Request

The attorneys for Henry Towers have instructed Court Reporter Moody to prepare a transcript of the record in the case of Henry Towers convicted of murder in the third degree in the district court of this county in January and sentenced to 25 years in the penitentiary. The object of the transcript is to apply to Judge McClenahan for a new trial. If this is refused an appeal will be taken from his order denying a new trial and the matter will go to the supreme court. Should that court so decree the case will be sent back for a retrial.

Under the law on a retrial Towers cannot be convicted of any higher degree of crime than that of which he was convicted before.

Home-Made Catarrh Cure

Any one can mix right at home the best remedy of its kind known. The name "Cyclone" is given to the following prescription, it is supposed, because of its promptness in driving from the blood and system every vestige of catarrhal poison, relieving this foul and dread disease, no matter where located. To prepare the mixture: Get from any good pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon and three ounces Compound Syrup Sarsaparilla. Shake well and use in teaspoonful doses after each meal and at bedtime.

This is a harmless, inexpensive mixture, which has a peculiar action upon the eliminative tissues of the kidneys, assisting them to filter and strain from the blood and system all catarrhal poisons, which, if not eradicated, are absorbed by the mucous membrane, and an open sore or catarrh is the result.

Prepare some and try it, as it is the prescription of an eminent catarrh specialist of national reputation.

COUNTY COMMISSIONERS

Proceedings of the Board of County Commissioners Meeting Held February 19th, 1907.

(OFFICIAL)

Pursuant to call, board met in special session at 2 o'clock p. m., to consider engineer's report and viewers on Ditch No. 13. All members present.

The chairman invited any having objections to said ditch as proposed to voice them at this meeting. Paul Markee objected that ditch as surveyed by engineer did not conform to the course as originally set forth in the petition, said that the petition did not call for extension of branch one as far north as section 1, town 135, range 28.

Moved and carried, that report of the engineer and viewers be accepted and the ditch established except as to that part of branch one north of Lake Edward within section one, thus putting the source of the ditch on the section line between sections 1 and 12, town 135, range 28, at a point about 25 rods east of southwest corner of southeast 1/4 of the southwest 1/4 of section 1, town 135, range 28.

W. H. Strachan on behalf of the Minnesota & International Railway company offered to put in the culvert on lot 3, section 35 where the ditch passes through the railroad grade at the expense of the railway company and in addition to pay into the ditch fund of Crow Wing county the sum of \$800.00 whenever the said county shall have lowered Lake Molly four feet by the construction of the proposed ditch, said culvert to be put in according to specifications of engineer of ditch.

Motion made and carried, that the proposition of the railway company be accepted and that the county attorney be instructed to draw up a suitable contract with said company covering the facts of the agreement.

On motion meeting adjourned.

J. F. SMART,
County Auditor.

Meeting held Feb. 20th, 1907.

Pursuant to notice board met at 10 o'clock a. m. to consider petition signed by R. J. Wetherbee and others, for public ditch, in towns of Crow Wing and Fort Ripley to be known as Ditch No. 14.

All members present except Commissioner Crust.

Petition was read and Chairman Erickson asked those having objections to state their case.

J. W. Porter appeared and objected that the cost of the ditch would be greater than the benefits received, said that if the county would lower Crow Wing lake there would be no further necessity of running the ditch any farther.

After considerable discussion Commissioner Andrews offered a resolution appointing Arthur E. Morgan as engineer of said ditch to make and file his report with the county auditor on or before April 20th.

Motion made and carried, that Geo. S. McCulloch, Thomas Barker and John Peterson be appointed viewers of said ditch.

On motion meeting adjourned.

J. F. SMART,
County Auditor.

STRAY LEAVES

From a Reporter's Note Book.

The dog ordinance has started a flood of dog stories. Nearly every man you meet has one to tell, either of his favorite pet or the cur his neighbor keeps.

The warm weather caught a severe cold this week. It was reported as four degrees below zero yesterday afternoon and it dropped to 20 or below last night, or rather this morning. Those early birds that were reported must have found the worm a pretty solid lunch.

It is reported at the yard office that A. J. Loom, night yard man was held up last night, or at least someone tried to hold him up. If you want the story right ask Geo. Forsythe, Jr., about it.

Business men report collections and business good last night and are all feeling well pleased over the prospects of trade for the coming summer.

NOKAY NOTELETS.

Mrs. J. H. Dickinson spent a few days last week in Brainerd.

Mr. and Mrs. H. W. Brockway and family visited in Esdon last Sunday.

Edward Heberling was reported very sick last week but is considerably better now.

School in district No. 31 will soon be open, with Miss Phyllis Kelehan in charge.

Rev. Justin Parish, of Deerwood, held services in our school house last Saturday evening.

Report says we are to have a saw mill on the shores of Nokay lake. It's a good thing, push it along.

J. H. Dickinson did some extensive repair work on his store at the lake last week. The store now has an attractive appearance, as there is more room to display the large stock carried by Mr. Dickinson.

The warm weather of the past week has given us all fresh courage, and we now feel able to stand it till spring. The roads are somewhat better and wise farmers are taking advantage of both weather and roads.

The Nokay Yeomen will give an entertainment here on Monday evening, Feb. 25th. It promises to be as good as the best, and the admission is only 10 cents. Let us have a large attendance. The twenty-fifth is the anniversary of the Yeomen order.

AMUSEMENTS

Beach & Bowers Last Night

That the minstrel show last night was much above the average was the verdict of most of those in attendance. The club juggling was reported as unusually good and the contortionist was fine. There were a number of good voices in the solos and choruses and the hits were good some of the local ones being especially well enjoyed. Considering that it was pay day and the merchants and their clerks were obliged to work that evening there was a good attendance.

Florence Gale

Miss Gale, the beautiful and talented American actress, will appear at the opera house on Wednesday, Feb. 27th in David Belasco's great play, "La Belle Russe." She is assisted by a strong company, and the production is all that could be asked for.

ENJOY EATING.

Good Digestion Can Be Readily Gained With Mi-o-na Stomach Tablets.

It is torment to look upon a tempting dinner and realize that to eat freely means distress and suffering.

Let us tell you how to enjoy eating, so that the heartiest meals will set well and cause no pain, distress or uncomfortable feeling of fullness.

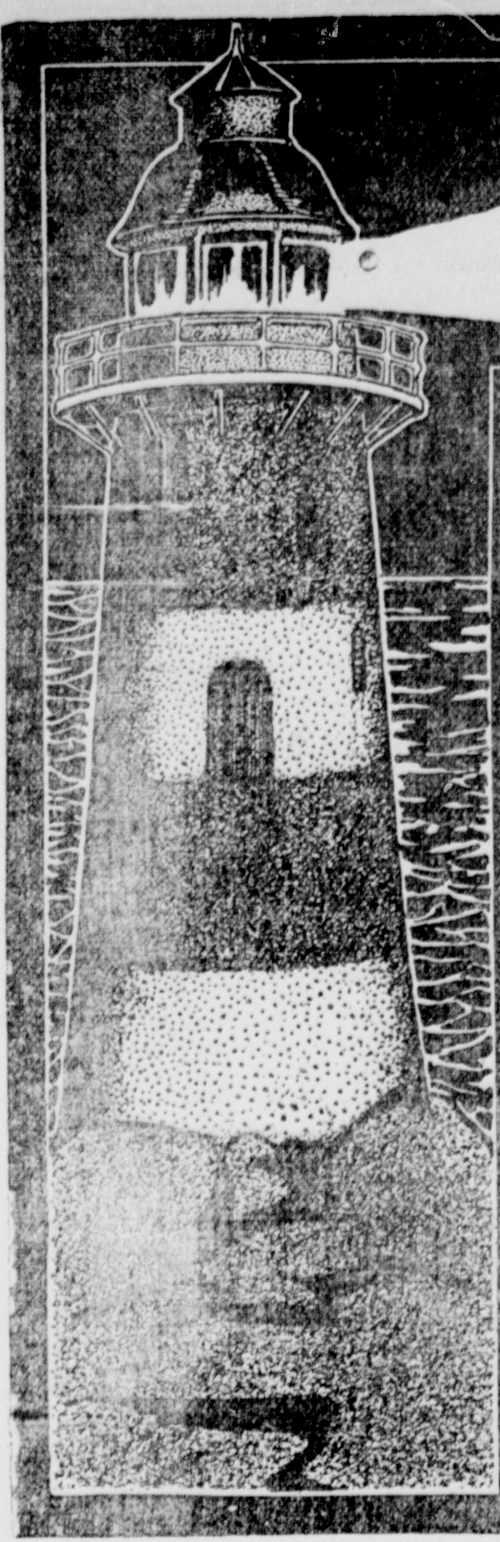

If you cannot eat and enjoy three good, hearty, satisfying meals a day without any feeling of discomfort, your stomach is weak and needs the strength which Mi-o-na stomach tablets will give it. You cannot afford to delay treatment, for the longer you allow the digestive organs to be weak, the harder it will be to get help.

The remarkable curative and strengthening power of Mi-o-na is attested by the guarantee, which H. P. Dunn & Co. give with every 50c box. "We return the money if Mi-o-na fails to cure."

If you find that eating well-cooked and properly chewed food is followed by heaviness and load on the stomach, by bloating, by gulping of acids and wind, by distress, nervousness, headache, trouble to sleep, or by any other symptoms of disordered or weak stomach, you should begin the use of Mi-o-na at once. It is guaranteed by one of the best known druggists in Brainerd to cure all disorders of the stomach or cost nothing. A guarantee like this means a good deal.

New England Supper

The New England supper to be given on Friday evening, Feb. 22nd, at the residence of Mr. and Mrs. C. H. Reed, 2119 1/2 Broadway street, by the ladies and friends of the Methodist church, will be served from 5:30 until 9. The tickets are 25 cents, and twenty of them are assured so that no undue waiting, the dinner will be served promptly and the supper will be a most enjoyable one. Does not change the color of the hair.

ONE VOTE AGAINST IT

W. A. NOLAN'S RECIPROCAL DEMURRAGE BILL IS PASSED BY THE HOUSE.

MEASURE WILL NOT GO INTO EFFECT UNTIL THE FIRST DAY OF NEXT JULY.

St. Paul, Feb. 21.—The reciprocal demurrage bill, introduced by W. A. Nolan of Grand Meadow, passed the house after consideration as a special order. The bill adopted, with a few small amendments, in the redrafted bill presented to the house by the special committee appointed for that purpose. As the bill stands it is considerably different from the bill which passed the house two years ago.

The house passed the bill with practically no discussion on the principle of the bill, but spent some time in considering a batch of amendments proposed by Ambrose Tighe of St. Paul. When the vote was taken T. J. Brady of St. Paul voted in the negative. The absentees were Handlan, Hollister, Orne, Thompson and Young. All the others voted in the affirmative.

An amendment by Mr. Tighe was adopted changing the time when the bill goes into effect from the time of its passage to July 1, 1907.

An amendment was offered by Mr. Tighe providing that half of the money should be paid to the school district at the station where cars were ordered instead of the district where the supper resides. This was adopted.

A provision proposed by Mr. Tighe was inserted that when a receiver fails to begin unloading the car with in forty-eight hours the company may either remove the car and collect

a day or else unload the car at the shipper's expense.

Sleeping Car Tax.

A 4 per cent sleeping car tax upon all state business and upon a proportion of interstate business based on mileage was given the approval of the house committee on taxes and tax laws, and the committee will report for passage the bill introduced by L. H. Johnson of Minneapolis to this effect.

W. H. Putnam of Red Wing introduced in the house a bill for the establishment of a state industrial reformatory for women between the ages of seventeen and thirty. The reformatory may be established anywhere the board of control sees fit.

A child labor bill was introduced in the house by W. L. Nolan of Minneapolis. It is a re-enactment of the present provisions of the code but makes them much more stringent and makes it much more difficult to obtain child labor permits.

The Hackney bill providing for a semi-centennial exposition to be held at the fair grounds in 1908 and providing for loan of \$1,000,000 for this purpose to the state fair association came up in the senate on general orders, but action was deferred for a day.

The senate committee on taxes and tax laws has decided to report for passage Senator Clague's bill providing for a registry tax of 50 cents on each \$100 of the principal of mortgages, and also Senator Wilson's bill providing for the appointment of a permanent tax commission of three members.

The senate committee on public health and pure food has decided to report for passage Senator Sundberg's bill prohibiting the sale of cigarettes and "the makings" in this state after July 31, 1907.

Primary Election Law.

The nomination of United States senators and state officers by direct primaries and the formulation of the party platforms by the candidates are provided for in a bill introduced by Senator John McLean of Waseca. The bill is similar to the Wisconsin primary election law.

Senator E. D. Pedford of Rushmore introduced a bill regulating the charges to be made for sleeping car berths. The bill makes it unlawful for any company to charge for the use of a lower berth between two points in this state a greater sum than \$1.50 and for the upper berth between points in this state more than \$1.

Senator John McLean of Waseca introduced a bill making eight hours the limit of continuous service of railway employees except in extraordinary cases.

A bill declaring the ownership of the state in lands lying beneath the waters of meandered lakes or rivers was introduced by Senator S. B. Bedford of Rushmore. The bill is in conformity with a recommendation of State Auditor S. G. Iverson.

Senator George H. Sullivan is the author of a bill introduced for a "Greater Stillwater," which provides a method of annexing territory adjacent to cities having between 10,000 and 20,000 inhabitants. While general in its terms, the bill refers particularly to Stillwater, where there is a considerable population in what is known as Oak Park, which is just beyond the city limits and really a part of the city except for the purposes of the city government.

An income tax on mortgages is provided in a bill introduced in the house by Burdette Thayer of Spring Valley. The tax provided is 10 per cent of the income or the interest upon the debt secured by the mortgage.

TROUBLES OF RUSSIA

STREET ATTACKS ON JEWS AT ODESSA SERIOUSLY AFFECT BUSINESS.

FAMINE IN MANY PROVINCES

POPULATION OF STRICKEN DISTRICT DEPENDENT UPON OUTSIDE RELIEF.

Odessa, Feb. 21.—Street attacks by the Union of True Russians, a reactionary organization, are daily assuming a more dangerous character. Business has been affected, the grain bourse has been closed, and financial transactions have practically suspended.

Gangs of roughs invade Jewish shops and restaurants, order the proprietors to throw up their hands, and then plunder and ransack the premises. One Jew drew a revolver in self-defense. He was immediately hustled to a deserted courtyard, where his arms and legs were cut off.

General Kaulbars, the governor general of Odessa, has at last been compelled to take action against the Union of True Russians for their outrages upon Jews, although only to the extent of threatening them if recent attacks upon citizens are repeated. In a decree just promulgated the governor declares that almost all the authors of these outrages are youths, eighteen of whom have been sentenced to three years imprisonment and exile.

Both the universities here and many of the high schools have been closed as a protest against the outrages.

Two sailors shot and killed Captain Zolotoff, who had arrested some strikers.

Pedestrians are often halted in broad daylight and asked whether they are Jews or Christians, and sometimes they are made to produce their passports. If they are Jews they are brutally beaten. It is said that General Kaulbars has protected the union, designating them as true patriots. As a result the police make no effort to suppress the anti-Semitic disorders.

Representatives of local educational institutions and of commercial interests have repeatedly made requests upon Premier Stolypin for official intervention, but they have received nothing more than evasive and unsatisfactory assurances that the conditions will be investigated. The inhabitants of the city have concluded to suspend business as a sign of protest until the outrages are no longer tolerated by the authorities.

FAMINE IN TWENTY PROVINCES.

Slow Starvation and Extreme Misery Prevail.

Kazan, Russia, Feb. 21.—A correspondent of the Associated Press has returned here after a twenty-five days' trip through Kazan, Samara and Ufa, three sample provinces of the twenty affected by famine. The correspondent investigated the situation in all directions, traveling 500 miles by sleigh in districts remote from the railroads and where the distress is most acute.

The population everywhere was found absolutely dependent upon outside relief. Although lacking the dramatic coloring of traditional famines—violent epidemics and wholesale deaths from hunger—the present state of affairs is characterized by slow starvation and extreme misery, which are fully as pitiable. The relief machinery organized by the government, the Red Cross, the zemstvos and private societies is working with reasonable smoothness and few localities are utterly neglected. But the government's allowance of 36 pounds of rye per person per month is inadequate and this amount is cut by 18 or 20 pounds by the cost of transportation and milling.

Men and even women between the ages of eighteen and fifty-five are excluded from receiving the government ration. In Ufa there is scarcely half the quantity of grain necessary for the ordinary subsistence of people and the peasants are so weak physically as a result of a succession of bad harvests that supplementary assistance will be necessary for thousands to make it possible for them to survive until the spring and have strength enough to plant the new crop. Non-property holders are excluded entirely from the government allowance and are dependent upon outside charity. The so-called "famine bread," an unwholesome mixture of corns and pigweed, which was eaten extensively in the autumn, has now generally been displaced by the government ration, but it still appears every month when the rations, despite the closest pinching, are exhausted.

The correspondent found sporadic cases of scurvy in all three provinces. Cases of ergotism are rare. In Kazan there is a terrible malady of the eyes due to the general and chronic malnutrition, but the reports of widespread outbreaks of hunger typhus are untrue.

Rembrandt's Birthplace Burned.
The Hague, Feb. 21.—The house in Leyden in which Rembrandt, the celebrated Dutch painter, was born 360 years ago, has been destroyed by fire. The building had for a long time been a place of pilgrimage for lovers of art.

FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

CONTINUES UNCHECKED.

Tide of Radical Success in Russian Elections.

St. Petersburg, Feb. 21.—The tide of Radical success in the parliamentary elections continues unchecked. According to the latest returns the Radicals are maintaining their lead with 40 per cent elected; the Liberals, including the Constitutional Democrats and the Conservatives, have each about 25 per cent, and the remaining 10 per cent is divided between Nationalists and Independents.

At 2 o'clock a. m. the returns showed 351 delegates elected from fifty-six provinces and cities. This number is made up as follows:

Monarchists, 53; Octoberists and Moderates, 28; Progressives, 20; Cadets, 61; members of the Left, 146; Nationalists, 40; Independents, 9.

Among the Left party are 28 members of the Group of Toil, 35 Social Democrats and 14 Social Revolutionists.

Professor Milukoff, leader of the Constitutional Democrats, admits that the results spell defeat for his party. The Constitutional Democrats will have at the outside a round 100 of delegates, less than one-fifth of the total representation, and with the recognition of this fact there disappears the last hope of this party of taking over the ministry.

The rumor that there will be a postponement of the assembling of the Russian parliament is positively denied upon the authority of the ministry, who declare that the douma will meet March 5.

Kills Herself With Chloroform.

St. Paul, Feb. 21.—Mrs. Lulu Field, aged thirty-eight years, a nurse in the family of Carl L. Miller, suicided by covering her head and face with a towel steeped in chloroform. She was alone in her room and the body was not found until morning. The towel which she had wrapped around her face was covered with a newspaper.
